

Beaux Arts Racing Fleet (B.A.R.F.) racing season final results after twelve weeks of sailing, and one week rained out.

Parker Carlson won the Katie Joe Trophy for the third time, and Karey Sharp, a former winner, was second in the juniors. The overall Championship was won by Forrest Kulp for the fifth consecutive season with Jack and Katie Kulp crewing. Second place went to Abbie Carlson with Kara, Rob and Parker Carlson crewing. Third place went to Tom Stowe with Hayley Stowe, Susan Bogert, Dave Rinn, and Rob Carlson as crew. Fourth place went to Eric Ayrault with Charlie Fratt and Cora Pirzio-Biroli as crew. Fifth place went to Selig Leyser with his daughter Lauren, wife Maureen, and Alan Lubner as crew.

BARF wishes to thank Ethan Ayrault who did an excellent job as our Commodore this year. BARF also wishes to thank our race committee Joann Bromberg and Susan Bogert, our crash boat crew Brad and Henry Wheeler, and the Sherriff boats for watching over us. Many Villagers also showed up to keep the race committee company and watch our fearless dingy racers. It's likely that a quarter of the Village participated in BARF.

The fleet set a new record of 34 races in a single season, beating last season's 33 races. After a blistering start to the 2014 racing season with four races a night the pace settled down to three races each night before the late summer doldrums, but the final night saw great wind and eleven boats participated. Out of our 18 boat fleet 17 boats sailed at least once during the season with an average of nine boats racing each night. BARF sails the Coronado 15 (C-15), a fifteen foot, one-design sailboat with a main and jib, and a crew of two. To qualify for season trophies, boats must have participated in 20 or more races. This season there were nine qualifying boats, right at the average for the past several seasons. Standings are based on the ongoing tally of race results, with the seven highest scores thrown out this season. The fleet races every Wednesday night from the first of June through the end of August. The first race began at 6:30 PM, and could be best seen at the north docks off Pier C.

BARF anticipates having a winter meeting to discuss the upcoming 2015 season, so look for the announcement. Our goal is to make all the boats in the fleet competitive, get as much participation from all age groups as possible, increase the skill levels of all participants, and have fun!
